**A global forecast  
for the construction  
industry over the  
next decade to 2020**

## Sponsors

CEMEX is a global building materials company that provides high-quality products and reliable service to customers and communities in more than 50 countries throughout the world. CEMEX has a rich history of improving the well-being of those it serves through its efforts to pursue innovative industry solutions and efficiency advancements, and to promote a sustainable future.

Holcim is one of the world's leading suppliers of cement and aggregates (crushed stone, gravel and sand) as well as further activities such as ready-mix concrete and asphalt including services. The Group holds majority and minority interests in around 70 countries on all continents.

Lafarge is the world leader in building materials, with top-ranking positions in all of its businesses: Cement, Aggregates & Concrete and Gypsum. With more than 84,000 employees in 79 countries, Lafarge posted sales of Euros 19 billion in 2008.

In 2009 and for the fifth year in a row, Lafarge was listed in the 'Global 100 Most Sustainable Corporations in the World'. With the world's leading building materials research facility, Lafarge places innovation at the heart of its priorities, working for sustainable construction and architectural creativity.

Orascom Construction Industries is a leading international contractor focused on large, complex and demanding projects primarily in the power, petrochemical, transport infrastructure and water treatment sectors. It is one of Egypt's largest corporations with projects and investments across North Africa, the Middle East and Europe, offering a comprehensive range of construction services, but specifically building, civil engineering, architectural and electromechanical installation.
